

The International Society for Neutron Capture Therapy

Prof. Ignacio Porras, President
Dr. Silva Bortolussi, Secretary-Treasurer

Granada, Spain, 26 July 2019

Prof Sergey Taskaev
Budker Institute of Nuclear Physics
Novosibirsk, Russia

SUBJECT – Organization of Young Boron Neutron Capture Therapy Meeting– YBNCT-11 (2021)

After the last edition of ICNCT, held in Taipei, Taiwan, in November 2018, the Boards of International Society for Neutron Capture Therapy have decided to open a call for the YBNCT to be held in 2021. As the principle of geographical rotation has been recognized as a very important point for the Society, the call was opened to non-EU Countries. After receiving the proposals, the Board of Councilors has voted and Novosibirsk has been appointed as the location for the 11th edition of the Young BNCT Meeting.

ISNCT thanks Prof. Sergey Taskaev, Novosibirsk State University and Budker Institute of Nuclear Physics for this commitment and remains available for support and help before and during the event.

Best Regards

Prof. Ignacio Porras
President of ISNCT
